Senior Full Stack AI Engineer | Generative AI & Enterprise Systems

SUMMARY

Senior Software Engineer with 20+ years of experience designing and modernizing secure large-scale enterprise systems using Java, Spring Boot, microservices, cloud platforms, and modern web frameworks. Most recent experience includes implementing full stack Generative AI technologies using VS Code, Python, FastAPI, LangChain, Ollama LLM, Retrieval-Augmented Generation (RAG), vector databases, React/Node.js, and AI-assisted dev.

SKILLS:

AI / GenAI | Python | FastAPI LangChain | Ollama | RAG | GitHub CoPilot | ChatGPT | React | Node.js | NPM
Java | Spring Boot | Spring Security | Spring Data/JPA | Spring Cloud | REST | OKTA | Angular | Cloud | GCP
CI/CD | Microservices | APIs | VectorDB | DataStax (Cassandra) | Oracle | JMeter | VS Code | Eclipse

WORK EXPERIENCE:

FedEx Services | Full Stack Developer III (14+ Years)

- Architected and built Java/Spring Boot microservices using Eureka, API Gateway, Zuul
- Led IBM-to-EDM migration delivering \$1M cost savings
- Built REST APIs replacing SOAP/WebLogic with OKTA SSO and CI/CD pipelines
- Designed large-scale batch migration (100M+ documents) from Documentum to Datastax (Cassandra)
- Implemented PCI-compliant encryption workflows and SSL/TLS secure services
- Improved Revenue Document Storage (RDS) performance via service decoupling and query optimization
- Enhanced EDM HTML5 Viewer performance through caching, versioning, and config optimizations.
- Built GCP automation scripts for audit/legal data export
- Enhanced Enterprise Document Management (EDM) services enabling ~\$8M projected revenue impact
- Developed core EDM JMS integration with email/fax systems
- Provided production on-call support and incident/defect resolution

Walt Disney World | Technical Specialist (7 Years)

- Developed Java/J2EE CMS enhancements for enterprise content delivery systems
- Built recommender systems using revenue scoring data for pricing and offers

M2 Systems Corporation (formerly Muscato Corporation) | Senior Software Engineer (6 Years)

- Built enterprise transaction processing systems using Java, MQSeries, Oracle PL/SQL
- Developed healthcare and financial integration systems for Blue Cross Blue Shield and others

TriCom Inc. (spun from ISR Global Telecom) | Embedded Systems Engineer (5 Years)

- Developed embedded protocol conversion systems (TANDEM Clip → SWAN network)
- Deployed telecom systems internationally including Daimler Chrysler Germany acceptance testing

Lockheed Martin (formerly Martin Marietta) | Systems Engineer, Co-Op (7 years)

- Built missile guidance and tracking simulations and sensor fusion models
- Developed FLIR turret tracking simulation with terrain and image processing
- Performed statistical analysis for control systems and IMU optimization

CERTIFICATES & TRAINING:

Udacity AI Tech Practitioner Training | Generative AI Fundamentals

- Skills Assessment Score: 234/300 (Accomplished AI Solutions Architect)

GitHub Copilot Training & AI Engineering Workshops | FedEx Webinar Series

Mobile Application Development Certification | University of California, Irvine

EDUCATION:

BS Computer Science, Scientific Specialization, Cum Laude

Minor Business Administration

- Academic Scholarship, Time-Shortened Degree | University of Central Florida
